

TG-AH/PT..

Clamp-on sensors

Temperature sensors intended for measuring surface temperature. The sensors have PT100- or PT1000-element.

- M16 cable gland
- Delivered with clamp and heat conductive contact paste

- Bayonet mounted cover
- Compact and modern design

Modern sensors in the Tempero-series that have an unobtrusive design. TG-AH/PT100 and TG-AH/PT1000 are intended for clamp-on mounting. Clamp and heat conductive contact paste are included.

Models

TG-AH/PT100	Clamp-on sensor intended for measuring surface temperature, PT100-element
TG-AH/PT1000	Clamp-on sensor intended for measuring surface temperature, PT1000-element

Technical data

Temperature range	-20...+120°C
Sensor element	PT100/PT1000, DIN class B
Time constant	5 s
Protection class	IP65

Dimensions (mm)
