RINO

- New form of air

EXCEPTIONAL DESIGN WITH TOP QUALITIES

The elegant RINO sets a new standard for the appearance of ceiling diffusers with its unique design. RINO is now even lower and smaller – it has less circles and the diameter is smaller. RINO is outstanding in comparison with other ceiling diffusers on the market. Its functional design that is pleasing to the eye is completed with excellent air and sound properties. RINO functions smoothly, silently and without draft.

In addition to the standard pure white RAL 9016, RINO is also available in 5 different colours

RAL 9002 RAL 6034 RAL 9006 RAL 8029 RAL 9005

RINO
prevents dirt
collecting
around it.

The RINO series
includes a new
stylish supply
air diffuser
for saunas.

RINO
fits in with
the interior
-It's available
in different
colours.

An exceptional ceiling diffuser

RINO is a ceiling diffuser with exceptional design and extremely good air and sound properties.

OPTIONS IN COLOURS AND MODELS

Thanks to its design RINO is suitable for any room and interior style. In addition to the supply air diffuser, the series includes RINOi exhaust air diffuser and RINO-S supply air diffuser specifically designed for saunas. All the products have the same design.

Silently and without draft

High mixing ratio and wide throw pattern at low flow velocity prevent the feeling of draft. RINO also features reliable measurement and quick and precise adjustment.

KEEPS THE SURFACES CLEAN

The exceptional design and the structure of RINO efficiently prevents dirt collecting around the ceiling diffuser.

Advantages and properties:

- + Elegant design and 6 colour options
- + New lower and smaller structure
- + High mixing ratio and wide throw pattern
- + Brilliant structure that prevents dirt collecting around the ceiling diffuser
- + Reliable measurement and quick and precise adjustment

With RINO even the whitest ceiling remain white.
